a month still to go!**

God is using CLIR

God has been pleased to use CLIR's printing ministry in powerful ways once again this year. From January through October, 2014, CLIR has shipped some 15,000 books to 17 different countries of Latin America, North America and Spain.

Even though our presses are running constantly, and we now have 86 titles in print, we continue to receive urgent requests for study material (both adult and young people's), commentaries, and other material.

We've run out of space!

Our garage has served us for almost 15 years, and tens of thousands of books have been printed here. But larger machinery and larger paper demands have pretty much left us without room to maneuver. Our CLIR team is reviewing different options for the future of the print shop. More space would make our capable production line even more efficient.

Please pray for these plans. And we are asking for CLIR's financial needs to be included in your church and personal budgets for 2015. We feel God's call to meet important needs for His Church!

Getting ready for major runs!

We have 6 major books in the pipeline, and we were able to save money by having a large quantity of paper special cut and delivered. We don't like to store it outside because of humidity, but didn't have enough room! 5 pallets of paper are awaiting the hungry presses. Thank you for your support of this ministry, which moves forward a little bit more every day.
