Praise the Lord for work teams!

Work teams help with much needed maintenance!

This year we have received teams from Michigan, Alberta and Ontario Canada, Delaware, and Iowa. The entire school has been painted a new color in what was a “painting frenzy”. New, acrylic sign is up. Drains have been repaired, lights fixed, and many other details! Praise The Lord for all the willing hands!

Teacher training

The school Board has worked over time with our principal, Jeremy Bravo, in preparing our teachers for this coming year. Part of this training is how to incorporate a biblical and Christ centered worldview in the classroom. They are excited!

Instant growth!

I don't think it is the new paint on the school (though that certainly helps!). I suspect we have excited parents who are spreading the word. We've jumped from 149 students to 189 overnight! All our new students are from Christian homes. Praise the Lord! God is working.

Some preached, some painted, some plastered - everyone worked hard!

There was work for everyone. Two pastors who joined their teams, Rev. Bob VanManen and Rev. Barry Beukema, spoke at different church meetings on “Biblical worship”, “Evolution and the Bible”, and “God’s law”. They also both preached at the Pacto de Gracia church.

The “Delaware connection” was back under the firm direction of Lothar (yellow shirt), with reinforcements both younger and older. Good to see you all back! The printshop is ready for electrical installation and windows - and then for printing!

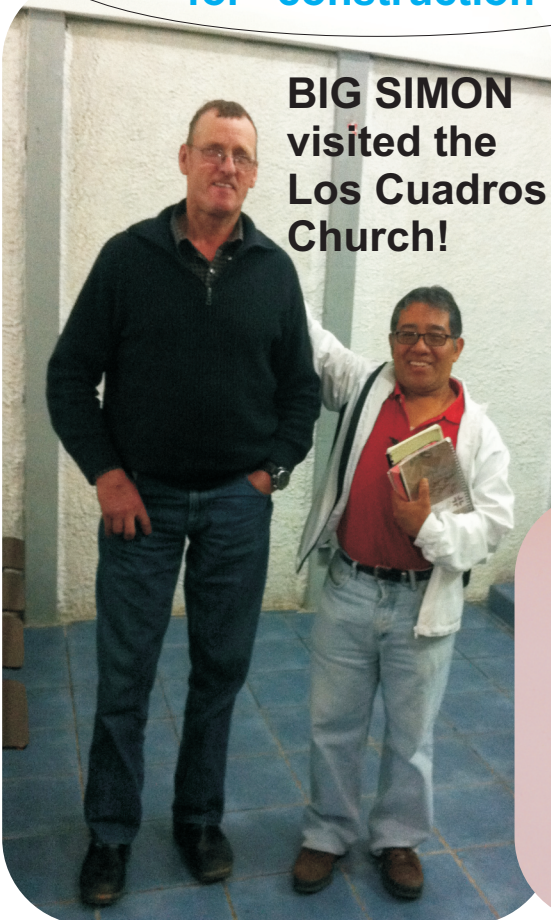

**Please consider an offering
for “construction”!**
